A one day seminar in your area co-sponsored by Idealease, Inc. and NPTC

HOW CAN YOUR COMPANY ENHANCE THEIR COMPLIANCE WITH INDUSTRY REGULATIONS?

The 2023 Idealease/NPTC Safety Seminars will give you the strategies and information that fleet managers need to comply with the FMCSA regulations and navigate safety and compliance in 2023. In 2019, more than 3,000 fleet managers benefitted from this comprehensive seminar.

The Idealease/NPTC Safety and Compliance Seminar, co-sponsored by Idealease Inc. and the National Private Truck Council (NPTC), is the industry's leading source of information and training that fleet managers need to comply with regulations, understand the carrier analysis process, and prepare for FMCSA intervention and compliance reviews.

Using the regulations as an outline for the entire seminar, topics are presented in a logical sequence beginning with definitions, an overview of enforcement activities, and guidelines to develop your own safety program.

2023 Safety & Compliance Topics

- Update on FMCSA Compliance, Safety and Accountability program (CSA)
- Review of new and proposed regulations
- Applicability of federal and state safety regulations
- Driver qualifications
- Hours of Service Regulations
- Drug and alcohol testing regulations
- Vehicle maintenance and inspections
- Cost savings and safety improvement through the ELEVATE® Driver Performance System

The FMCSA is charged with preventing commercial motor carrier vehicle related fatalities and injuries by strongly enforcing safety regulations. Compliance, Safety and Accountability (CSA) is the FMCSA initiative to improve the effectiveness of the Agency's compliance and enforcement programs. CSA enables earlier intervention and an increase in integration with FMCSA. Through CSA, the FMCSA identifies and targets motor carriers for intervention using data collected from roadside inspections, moving violations, and crashes.

Do you need help to manage fleet safety?

The Idealsafe/NPTC Safety Seminar will help fleet managers understand and manage fleet safety for all major areas scrutinized during state and federal compliance interventions and reviews.

Our step-by-step approach simplifies compliance with federal and state regulations, hours of service (driver's daily logs), drug and alcohol testing rules, vehicle maintenance and inspection, accident recordkeeping, and driver qualifications.

At the Idealease/NPTC Safety Seminar you will learn about new and proposed regulatory changes and how to enhance your safety program above and beyond regulation requirements. The **Idealease Guide to Transportation Safety and Compliance**, provided to each seminar participant, is an invaluable tool that will assist you with your safety and compliance documentation.

Register Today!

Take advantage of this unique opportunity to keep your fleet manager thoroughly informed of the motor carrier regulations that affect your operations, and learn important risk control techniques to maintain insurability and control losses.

Our one-day seminar consists of presentations from industry professionals, discussion among attendees, and educational handouts. Lunch is provided. The seminar is valued at \$395.00 per person, and is offered as a no cost, value-added service to all NPTC members and Idealease current and potential customers
